

## **Thought Force on Appointing Area Coordinators VS Electing Area Coordinators**

Sandra F. Chairman

The Thought Force continues to gather information from Area's around the US North Central Region of the conference structure. We have received information from four Areas and are currently waiting for responses from the other five.

In our discussions, we talked about asking groups what they are thinking about this topic. We propose conducting a survey of Groups in our Area. The survey would be simple and completed before the end of 2024 to give us direction.
