

HANDBOOK COMMITTEE

**Report to AWSC
March 29, 2025**

A Handbook Committee meeting has not, as yet, been scheduled for updating the Bylaws for AFG of Ohio, Inc. However, an initial review of our current Bylaws dated/accepted May 2022 is underway. While the revised Ohio Area Handbook dated October 2024 now available on the Area Website has incorporated the new ASBR (Alateen Safety & Behavioral Requirements), any references in our Bylaws must now be updated as well. As chair, I would like to request that current or former AWSC members who have noted existing informational errors or necessary updates/additions to the Bylaws please contact me to discuss further. Your cooperation will assist the Committee members to be more efficient in their review process.

Recognizing the importance of accuracy in our 2 documents of procedures and guidelines, I am always open to receiving any insights, history, or specific guidance that can be useful.

In service ~

Cheryl Beil
Handbook Committee Chair
